

System shall consist of a 32" x 48" rectangular acrylic backboard, (PKG275 if clear, PKG275S if smoked), breakaway rim, steel mounting structure, and southern yellow pine wall mounting boards. Backboard shall have an aluminum support frame and a white border and shooter's square. Rim shall be official size and include net. Structure shall be constructed of formed steel and designed to allow the rim height to be adjusted from 7 1/2' to 10' in 6" increments by means of an adjustment pole that adjust the actuator (not provided). Steel structure shall mount to the wall boards using anchors provided. Wall boards shall attach to walls capable of bearing the 105# system weight plus the additional weight of players hanging from the rim. **It shall be the purchasers duty to confirm that the wall is capable of bearing the weight safely.** Wall mounting hardware shall be specified and provided by customer. When the rim is at official 10' height, the distance from the wall to the face of the backboard shall be 22" with it increasing and then decreasing as the rim is lowered. System shall have a 1-year limited warranty on the backboard and structure.
